

The Planets

Yakko: The closest to the Sun
Is the planet Mercury
Next the shrouded planet Venus
Is as cloudy as can be.

The Earth is next; we call it home
Let's hope it stays that way
And then there's Mars; it's really red
What more can I say?

The gassy planet Jupiter's
As big as planets come
Then there's Saturn with its mighty
Rings made up of tiny crumbs.

We travel on to Neptune
That's a gassy, freezing ball
And cold and tiny Pluto
It's the furthest one of all.

Yakko: (spoken) Well, there you go. That's our solar system.

Wakko: You forgot Uranus.

Yakko: Goodnight, everybody.
