

Staring Down the Demons

Animation

I always said we can work out, whatever the trouble might be
And though I still want to believe, it's getting harder for me
Maybe it's something that happened, something you've gotta go through
Losing our way in the silence is the last thing I wanted to do
The last thing I wanted to do!

We've gotta keep staring down the demons
Face yourself at night, we've gotta stand our ground
To the ease of sound of mind

Who's isn't hiding from something they don't want to face
Fearing the truth in believing the danger of falling from grace
I still don't know how it happened, but I know we've gotta go on
Drawing it out of the shadows till all the danger is gone
Till all the danger is gone!

We've gotta keep staring down the demons, face yourself at night
Till another way is found, we've gotta stand our ground
We keep staring down the demons!

We've gotta break free in the darkness, leave all the shadows behind
Taken it on with vengeance, and with all the love we can find
With all of the love we can find!

We've gotta keep staring down the demons, face yourself at night
Till another way is found, we've gotta stand our ground
Keep staring down the demons

Staring down the demons
And face yourself at night, until another way is found
We've gotta stand our ground
Keep staring down the demons
