

## I Can't Get Started

Anita O'Day

I've flown around the world in a plane  
I've settled revolutions in Spain  
And the North Pole I have charted  
Still I can't get started with you

On the golf course, I'm under par  
Metro Goldwyn have asked me to star  
I've got a house, a showplace  
Still I can't get no place with you

'Cause you're so supreme  
Lyrics I write of you, I dream  
Dream day and night of you  
And I scheme just for the sight of you  
Baby, what good does it do?

I've been consulted by Franklin D  
Greta Garbo has had me to tea  
Still I'm broken-hearted

'Cause I can't get started with you
