

# Drive

Anja Nissen

Where you been  
'Cause my heart can't forget you  
Once again here we are  
Don't regret you  
Life goes on when you're gone  
But I hate it  
Lay me down on the floor  
Missed you baby

But the walls we've built  
Have always been too high  
And we'll never be together if it's a lie  
We can never get it right  
And I don't know why  
I don't know why

Right now we can pretend  
I am yours  
You are mine  
For now we can forget  
And just drive, drive

There's a memory there, but it's faded  
Take them out of the dark and replace it  
What I feel for you now never changes  
But I know that this love is dangerous

But the walls we've built  
Have always been too high  
And we'll never be together if it's a lie  
We can never get it right  
And I don't know why  
I don't know why

Right now we can pretend  
I am yours  
You are mine  
For now we can forget  
And just drive, drive

Drive, drive, drive  
Drive, drive, drive  
Drive, drive, drive  
Drive, drive, drive

Right now we can pretend  
I am yours  
You are mine  
For now we can forget  
And just drive, drive

I am yours, I am yours  
Drive  
Baby, drive  
Drive
