

# No Apology

Anna Abreu

Always I'm surprise how you place the blame of making mine  
And how you keep that poker face as you claim you innocence at  
the crowd  
Now the tables are turned on cuz I wait and got strong  
And now you back here begging  
Now the one you can't have s the one you love

Karma, calling around and that's pay back, you're feeling now  
You're not good enough for me  
I got no apology boy stop calling me up you can't get me back  
Baby I'm done you're not good enough for me  
I got no apology

Why you play hose violins so roll out  
When everybody knows your song  
Cuz nobody believes your sad story  
How your bitch just did you wrong  
So tell me how do you like that?  
Being out of the call  
Now the one you want is the one you never hold

Karma, calling around and that's pay back, you're feeling now  
You're not good enough for me  
I got no apology boy stop calling me up you can't get me back  
Baby I'm done you're not good enough for me  
I got no apology

Karma, calling around and that's pay back, you're feeling now  
You're not good enough for me  
I got no apology boy stop calling me up you can't get me back  
Baby I'm done you're not good enough for me  
I got no apology, no apology
