

Shine

Anna Abreu

Like a star is there to guide you
On the darkest night
You're the only one I turned to
And when you left me there to pull through
With an empty sky
I thought I'd never learn to
Reach out for love again
Prove to myself there's still meaning
Though I feel follow
Somewhere there's a light that burns brightly

Let the darkness fall
I'll light the candle
With or without you I'll continue to shine
Back against the wall
I'll light the candle
With or without you I'll continue to shine

Like the wind is there to carry
Those who dare to fly
I found new strength within me
The truth was staring at me
When you said goodbye
I just had to break free
Reach out for love again
Prove to myself there's still meaning
Though I felt hollow
Somewhere there's a light that burns brightly

It wasn't up to you
It all falls down on me
I can do anything
I opened my eyes
Cause my light will forever shine
