

Sunny Point Drive

Anna Graceman

Don't wanna think just wanna drive
Flow with the breeze and go chasing blue skies
Up in the clouds, down for the ride
Twist and I shout, give me the good times

Let's just keep rolling down this long winding road
If I'm with you then I don't care where it goes
Don't wanna think, just wanna vibe
All that I need is you and I

And Sunny Point Drive
Open my eyes
Sunny Point Drive
Future is bright
So bright, bright, bright
Future is bright

Don't wanna blink, hours fly by
And so do we, ain't wasting no time
Looking back, learn from that
We just laugh and hold on for our lives

Let's just keep rolling down this long winding road
If I'm with you then I don't care where it goes
Don't wanna think, just wanna vibe
All that I need is you and I

Sunny Point Drive
Open my eyes
Sunny Point Drive
Future is bright
So bright, bright, bright
Future is bright

Sunny Point Drive
Open my eyes
Sunny Point Drive
Future is bright
So bright, bright, bright
Future is bright
