

Time To Get Over It

Anna of the North

It only feels like yesterday
When you blew my mind away
People wave are passing by
See them look at us and smile

Think how happy we could be
How happy
Look how happy we could be
If we played it differently
Is it time to get over it?
Time to get over it

Try to get my shit together
You just pull it apart
Try to be the bigger person
But you fucked up my heart
And every time I move, I fall
But we go back to the stand
Is it time to get over it?
Time to get over it

Think how happy we could be
How happy
Look how happy we could be
If we played it differently
Is it time to get over it?
Time to get over it
Is it time to get over it?
Is it time to get over it?
Is it time to get over it?
Is it time to get over it?
Is it time to get over it?
Is it time to get over it?
Is it time to get over it?

Try to get my shit together
You just pull it apart
Try to be the bigger person
But you fucked up my heart
And every time I move, I fall
But we go back to the stand
Is it time to get over it?
Time to get over it
Try to get my shit together
You just pull it apart
Try to be the bigger person
But you fucked up my heart
And every time I move, I fall
But we go back to the stand
Is it time to get over it?
Time to get over it

Think how happy we could be
How happy
