

Tonight (I Want to Be in Love)

Anne Murray

I walk the crowded streets
I 'm holding you
Darling, your face is all I see
I hear the city noise
I dance with you
I feel your arms all over me
You're that someone I've been waiting for
So come on in and close the door
And lay your body close to me

Tonight, I want to be in love
One night I won't forget
No tears and no regrets
Oh, tonight, I want to celebrate
And all the love we've made
Has never felt so right
Tonight

I'm in the mood to spend the night with you
I feel the romance in the air
No promises to where this night will lead
Just let the feeling take us there
There's a perfect moon up in the sky
And when I look into your eyes
I feel the magic everywhere

Tonight, I want to be in love
One night I won't forget
No tears and no regrets
Oh, tonight, I want to celebrate
And all the love we've made
Has never felt so right
Tonight

Tonight, I want to hold you

Oh whoa oh
You're that someone I've been waiting for
So come on in and close the door
And lay your body close to me

Tonight, I want to be in love
One night I won't forget
No tears and no regrets
Oh, tonight, I want to celebrate
And all the love we've made
Has never felt so right
Tonight
Tonight
