

# We Don't Have To Hold Out

Anne Murray

Opportunities so few and far between  
Chance for real love so hard to believe in  
Every broken heart needs some time for mending  
But if we wait too long this moment may be gone.

We don't have to hold out any longer  
Oh it feels like this is the moment  
We don't have to stay out in the cold any more  
Let's just take this chance and never let it go.

All the memories, the good and bad, keep coming back  
The past will never leave as long as we let it last  
But we could let it go pack up all the make-believe  
Send it on its way and think about today.

We don't have to hold out any longer  
Oh, it feels like this is the moment  
We don't have to stay out in the cold any more  
Let's just take this chance and never let it go.

Now we could hide away  
Live our lives alone  
Thinking it's the only way  
But I can't let it go on any more.

We don't have to hold out any longer  
Oh it feels like this is the moment  
We don't have to stay out in the cold any more  
Let's just take this chance and never let it go.

Let's just take this chance and never let it go...
