

# An Organized Life

Anneliese van der Pol

Everything in life depends on good preparation  
Cheerleaders need to live up to demands  
If we're not affective then we have to work harder  
Know our routines like the back of our hands  
We need to drill them all  
So that the job gets done  
We need to run these cheers  
So we can cheer each one  
We need to rouse the crowd  
But never crowd the team  
And then the team will love us  
And the crowd will cheer us  
And the world will know  
We're as perfect as we seem

Hey you gotta organize friday evening  
You got your varsity game of football  
You gotta stair on the sidelines  
Helping them win

Then we'll go with our guys to some perfect setting  
Finish them out with a little petting  
And thats how you begin to have an organized life

Now we got to decide the theme for the football dance  
Its less than a mile away  
Themes for the football dance are always so corny  
Well I was thinking about over the rainbow  
i think that sounds more like the prom  
Shouldnt the football dance have something to do with football

Yes now im sorry but I know what im doing  
Over the rainbow is what it will be  
I dont know I sorta think we need something better  
Well over the rainbow sounds perfect to me  
We'll need some big balloons  
No I think balloons are squear maybe  
We'll decerate the gym in lots of colors  
I know what shoes I'll wear... what are you gunna wear?  
I'll buy a tight nit dress  
I'll get a new hair style  
I'll make a big huge rainbow and use chicken wire  
And stuff it full of tissue colored by the mile

And we'll have an organized night of dancing  
We'll have our over the rainbow outfits  
Be in charge of the punch bowl  
Starting the trends  
We'll be girls to the rest of the mires  
Some planing and chicken wire  
We're 3 best friends live an organized organized life

Life is full of drama  
Life is full of dreams and promises  
But its up to you to make it through and pass each test  
You can make it

I know we can run this house show  
So simply follow me  
And we can be the best

Now when the dance is done they pick the football queen  
I really hope its you  
Im sure you get it marry  
I dont know what you mean  
I hope you get it  
No I hope its you  
Now come on  
If not I'll slit my thought  
Theres only one thing certain  
One of us will get it  
But to just make certain  
We should maybe fix the vote and so we need to organize all of our boyfriend  
s  
We need to influence all of there team mates  
We need to through them a party  
Thats how this goes  
Since we know that the team controls all the inputing  
Nothing is wrong with some self promoting  
Lets just go to those who have an organized organized life

So now we have an organized plan of action  
Most organized to our advantage  
Taking charge of our class mates  
Pulling some strings  
Popularitys yours if you go and win it  
Power begins with how you get it  
And preperation wins when you have an organized life  
Take care of little things  
You'll have an organized  
Life
