It's my head, it's your bead, it's the sex, it's your way
It's your move, it's the moon, it's the sky, it's the earth
I'm ok, I'm ok, take me home in a day
In the night I'm confused, there's no light, there's no roofs
There is a light in the end , it's a circumference
It's the moon, it's my head
I'm ok, I'm ok
It's my head, it's your bead, it's the sex, it's your way
It's your move, it's the moon, it's the sky, it's the earth
I'm ok, I'm ok, take me home in a day
In the night I'm confused, there's no light, there's no roofs
there is a light in the end , it's a circumference
It's the moon, it's my head
I'm ok, I'm ok
Take me home in a day
You take it slow, I follow the road
it's so dark, too dark to see it with my eyes
take my hand, feel me
I'm your way, you're the road
take me, take me, take me home.
It's my head, it's your bead, it's the sex, it's your way
It's your move, it's the moon, it's the sky, it's the earth
I'm ok, I'm ok, take me home in a day
In the night I'm confused, there's no light, there's no roofs
There is a light in the end , it's a circumference
It's the moon, it's my head
I'm ok, I'm ok
Take me home
You take it slow, I follow the road
it's so dark, too dark to see it with my eyes
take my hand,
feel me, I'm your way, you're the road
take me, take me, take me home
