

# Army of One

## Annihilator

Just one big family  
Been around since the 1980's

Old school, we're living in the past  
They said it would never last

A few dozen of the strong survived  
On a mission, to keep it alive

Hell bent, ignoring the trend  
While many pretend

We stand united for something we believe in  
We are the army of one  
It's in our blood, this is our life  
It's why we're breathing  
We are the army of one

Anthrax and Motorhead  
Exodus, Slayer, bang your head

Dedication when the going got through  
Was never enough

Priest, Metallica, Megadeth  
Iron Maiden and Black Sabbath

They tried to kill it  
Force it underground  
You can't take it down

Volume blasting  
Drums are crashing  
The guitar is screaming  
Never give it up, never giving up  
Right to the end  
Sacrificing, no compromising  
Is what we're bringing  
Never give it up, never giving up  
Fight to the end
