

## Insomniac

### Annihilator

Tossin, turning in the darkness  
You try so hard to get to sleep  
Your mind is racing, seems so hard to tell  
Is this the end or is this hell

Torture in the head, going round and round  
Spinning in the brain as you hit the ground  
You got a fever but it feels like a freeze  
I'll bring down, down to your knees  
A full blown insomniac  
You're getting ready for the next attack  
So go on and try to rest your head  
But you just can't, just can't can't get to bed

Say goodbye and try to slip away  
You close your eyes but suddenly you wake
