

# Murder

## Annihilator

Six feet under  
no longer alive  
this is your destiny  
cause I have arrived  
I am not a nightmare  
I am disease  
and I'll bring society  
to it's knees

murder the world  
I was born to murder the world

the fools and the innocent  
they're all the same  
to me, I thrive on  
pleasure and pain  
it's not a war of attrition  
I never lose the games  
feel the grand invasion  
feasting in the veins  
I was born to murder the world  
your strenght devoured  
just wither away  
'til the final hour  
the battle is won  
march to the beat  
I am the plague, invincible  
that you can't defeat  
I was born to murder the world
