

## Ultra-Motion

### Annihilator

Pure speed in thermal overdrive  
Performance always set to the hilt  
Ignition, time to ignite  
The ultimate machine ever built  
High-octane adrenaline rush  
Nothing's gonna get in my way  
Time-bomb, hell-bent for destruction  
There will be hell to pay

Speed and aggression, a deadly obsession  
Joining together in ultra-motion  
Born out of fire, they into one  
We all come together in ultra-motion

Burn, electricity  
Ripping through the air-ways  
The direction's not an issue  
It is the energy that I crave  
Forces un-natural  
Conquering the speed of light  
Charging, invincible  
I am the power and the might  
Hell racer  
I gotta go, I got the speed
