

# At The Heart Of The Matter

Annisokay

At the heart of the matter  
Just take a closer look  
Make it easy cause it is  
It's all black and white when the music stops  
It ends, so it begins

Sometimes I think I understand

Everyday I know that  
I may be closer to  
To something beautiful  
You are tomorrow in today  
And you will ever be

The you I know is fading away  
No guts, no glory  
The you I know is fading away  
Just stand up and be counted

Can't say goodbye to somebody you don't know  
So it begins, so it ends

I think I ... understand  
Sometimes I think I understand
