

Friend or Enemy

Annisokay

Enemy, enemy
Enemy, friend or enemy

There's a price on your head
And deep down you know
It's all just a business my friend
Where anything goes

The fix is in
The battle lines are drawn
And friendly fire
The deadliest of all
The fix is in
The knives are coming out
You thought you were
The last Boy Scout

If you're their enemy
They will kill you, kill you for money
If you're a friend
They will kill you but for nothing

You're my enemy
You're my enemy
Friend or enemy

There's a price on your head
They're cashing you out
So all raise your glasses please
This ones on the house

The fix is in
The undertow is strong
Conspiracy
The massacre they want
Are you their friend?
Or enemy of the state?
Their little bitch
Coming out to play

If you're their enemy
They will kill you, kill you for money
If you're a friend
They will kill you but for nothing

You can do the things you want
Just leave this shadow, shadow of fear
You can do the things you want
Just leave this shadow, shadow of fear

Don't be afraid of it
It's inside of us
We need to overcome that fear
Which is controlling us

It's controlling us
It's controlling us

This world is so big
Don't be afraid of it
A variety of mystery
Don't be afraid of it
