

Humanophobia

Annisokay

It's a feeding frenzy
Cos fear makes money
And if you're dealing in fear
You're gonna need some enemies

So find me an enemy
Find me an enemy

You can not kill kings
To flush out the jacks
You, you can not kill kings
To flush out the jacks

And you would raze whole cities
Even poison the sun
For the few bad men
Who never loved anyone

We need more money
So we're making fear
But the fear needs a name
And the fear needs a face

Don't blame a whole race
For the few sick fucks
Who never learned shit
And never loved anyone

You can not kill kings
To flush out the jacks
You, you can not kill kings
To flush out the jacks

And you would raze whole cities
Even poison the sun
For the few bad men
Who never loved anyone

Most humans never kill anyone
Never kill anyone
Anyone, anyone
Most humans never kill anyone
Never kill anyone
(Never kill anyone)

And you would raze whole cities
Even poison the sun
For the few bad men
Who never loved anyone

And you would raze whole cities
Even poison the sun
For the few bad men
Who never loved anyone
