

# Like a Parasite

Annisokay

I give it all  
Shoot for the stars  
You feed yourself  
While I starve

You never  
Had my back  
Not a bit  
You left me hanging  
I call it quits  
You damn hypocrite

You were faking, simulating  
But the times have changed  
No more hiding, no disguising  
Lay down your veil

I, I leave you behind  
Cut all of our ties  
Before you bleed me dry

We built this world for you  
I can see right through you  
Every time  
I died some more on the inside  
You bleed me dry  
Like a parasite...

It is a matter of give and take  
Not fighting for your own sake  
Backstabber  
And in the final aftermath  
You will show me your bare face  
Without a mask

You were faking, simulating  
But the times have changed  
No more hiding, no disguising  
Lay down your veil

I can't see through your eyes  
I can't justify  
The way you bled me dry

We built this world for you  
I can see right through you  
Every time  
I died some more on the inside  
You bled me dry  
Like a parasite...

I choke on the air you breathe  
I won't let you sow you're seeds  
I won't hear the lies you preach  
I won't be fool you bleed

After all of this

You still try to stab my back  
And while you're loosing ground  
You still try to bring me down

We built this world for you  
I can see right through you  
Every time  
I died some more on the inside  
You bled me dry  
You fucking parasite
