

# Snowblind

Annisokay

I look up to the sky tonight  
Its beautiful remember to breathe  
Remember to see it all  
Before I will forget (I ask)  
Am I home yet (come back)

When I get lost in myself  
Oh memories where did you go  
I've lost all I've ever known  
Forgotten the one place I've called home

Snowblind  
This is the snow across my mind  
Snowblind  
The snow which will make me blind

Board me up  
Sew me into the sheets  
Fill me with coal and ice  
Until the wind retreats  
My organs can live without me  
You can't predict the end

When I get lost in myself  
Oh memories where did you go  
I've lost all I've ever known  
Forgotten the one place I've called home

Looking closely at the stranger in the mirror  
Who's this ghost staring back at me

Please forgive me, please believe me  
Cause I'm far too afraid to hell  
Confinement in a dark cell

There's nowhere to hide

No ones ever seen me like this  
On a motion to dismiss  
I need to understand  
That I'm a broken man

When I get lost in myself  
Oh memories where did you go  
I've lost all I've ever known  
Forgotten the one place I've called home
