

Do you still believe the myth?  
Do you still believe the hype?  
Still following the piper  
Like the corpse that draws the flies

It was all just a load of bullshit  
Born of the fake fucking news  
That you read out like the gospel  
And you still believe it's true

It's easy to see a conspiracy  
When the world is so damn flat  
It is easy to see a conspiracy  
When the world is full of hate

Never just believe  
Any old shit you read  
Mixing urban myths  
With science fiction  
Never just repeat  
What someone else believes  
Spreading hate and fear  
With pure fiction  
Shut the fuck up!  
Shut the fuck up now!  
And start using your own brain

Do we still believe in ghosts?  
Do we still believe the rumours?  
Of someone throwing apples  
Over the walls of Eden

It was all just a load of bullshit  
Born of the fake fucking news  
That you read out like the gospel  
Full of facts from a social feed

It's easy to see a conspiracy  
When the world is so damn flat  
It's easy to see a conspiracy  
When the world is full of hate

Never just believe  
Any old shit you read  
Mixing urban myths  
With science fiction  
Never just repeat  
What someone else believes  
Spreading hate and fear  
With pure fiction  
Shut the fuck up!  
You crowned yourself the king  
Of the weak and the cowards  
You crowned yourself the king  
Without using your own brain

(Shut the fuck up)

(Shut the fuck up)  
(Shut the fuck up)  
Shut the fuck up!

Shut the fuck up now!
