

# Ordo Ab Chao: The Scarlet Communion

Anorexia Nervosa

His excess of light is searching for your darkness  
He is the tyrant  
There's one only law for him ...to be pure  
He comes from above  
He died a thousand times and put his hand in mine  
He hails victory and loss

I hear him coming every single day  
And the queen desires me  
To use some gentle entertainment to him  
If it be her will...

And I have no choice - Plus de chemin nulle part  
I should kill for him - I will kill for me  
He shall bring me the anti-matter  
No compassion, never  
Never kneel before anyone

The wound is so deep  
Them - Us - Against

I sacrifice my right arm to the golden rain  
And I know it's a sign  
I know the end is near  
One black cancer to make the children close their eyes  
Abime, Abyssus, Propator !

The red earth is trickling down on the wall  
Its blood is running off my veins

Et tandis que le grand feu devore le monde la matiere  
Je prends ma place a la porte du cercle divin

Antagonize the world - Incest and crime  
Humiliation of the whore - Cum, suck me child  
Vengeance is mine - Murder is wine  
Purification through the forever more

Hold your breath and picture the scene

The green-eyed angels are losing their wings  
All mothers are devouring the babies  
While children fornicate with animals  
And fathers die of overdose

Dressons le bucher de ce monde  
Et les ames des elus seront la substance divine

United we stand  
We walk through the flames  
We walk upon the ruins of your dreams  
Of charity and of respect
