

Life Good

Anthony B

As long as you a life and a breath
As long as you a life and a breath
Haffi give thanks for life
Happiness is all you need

As long as you a life and a breath
As long as you a life and a breath
Give thanks for another day in the breeze

Every morning when I rise
As I open up my eyes
I give Jah thanks for another day
Every night before me rest
Go a bed and chop of mi stress
I give Jah thanks for another day

No worry life has been good!
So good! (so good)
So good! (so good)
So good! (so good)

Babylon block off we light block of we water
but dem caan not cut Jah rain nor river

Listen now Jah sons and doughters
'Who shall tell I', said the longest liver

Politicians a' burglar-master
Make promise a' win and think dem clever
But if we waan help is rastafari all over

:

Remember money dont bring happines
so cut out bolstering and cockiness
no burst by a bredda when a you Jah Jah blessed

Every lion gwaan then
and every bird gwaan nest, yea

so dont make the system stress you
dont kill yourself by your girlfriend left you
try fi help a brother where you next stop

Jah will bless you!
