

Love Is

Anthony Evans

I said I loved you
But I protected, and kept my heart
From you
I saw your hurting eyes still I decided to
Move away keep myself safe.
I apologize cause I've realized
Love is willing to get hurt
Love gives needing no return
When Love lives it needs no words
I've learned that's what
Love Is
You said you loved me
So you came and you gave it all
For me
You could of changed your mind but you decided to
Walk that road You knew that is would go
To your end so I could live
[Chorus]
It can be uncertain but still
It moves because it's worth it.
