

# Conversation Piece

Anthony Green

Transform old habits for a new career  
that wouldn't even change the atmosphere around it  
We made our bed from manufactured parts and swedish guarantees  
just as a conversation piece  
And that eureka feeling doesn't last long,  
and everything you photographed is gone

Laid our foundation on a sink hole and then expected it to stay  
,  
Move everything that made me want you in the first place  
is what's driving me away  
And that eureka feeling doesn't last long,  
and everything you ever photographed is gone

And there's no way I could ever stay away,  
but you won't even answer  
The very thing that made me want you in the first place  
is what's driving me away  
is what's driving me away  
is what's driving me away
