

Love In A Hot Air Balloon

Anthony Phillips

What a situation
I want to take you beside the sea
But I've got no transportation
No tyres on the bike and the car's got a leak
I had an inspiration
Something's climbing above the trees
It's silent aviation
No bottlenecks on the A23
Me oh my, watch me fly, through the sky, higher and higher
Eagle eye, one mile high, watch us fly
Love in a hot air balloon
Feelings of elation
Floating around in the atmosphere
It's pure intoxication
Moët Chandon et personne conduire
Losing elevation
The sands have run out and we're going down
She stubbed her cigarette out
And now we're on course for the Eiffel Tower
Me oh my, watch me fly, through the sky, higher and higher
Eagle eye, one mile high, watch us fly
Love in a hot air balloon
