

# All The Fun Of The Fair

Anthony Stewart Head

I wrote this song when I was younger  
Blind to the lesson I could learn.  
I'm finding it hard to feel good  
'Cause each time I'm up there  
I know I'm gonna fall,  
Even though it's understood.

Why does coming down seem to last forever?  
And this constant change of feelings  
Is making me reel.  
This constant change of feelings is making me...

Wanna get off, I want it to stop  
(These are our lessons, learn them well)  
You can't get off.  
I wanna get off, I wanna check out.  
(These are the lessons we live to learn)  
You can't get off, no you can't stop it.

I wrote this song when I was young  
Now I know there's so much I have left to learn  
Adversity only makes us stronger,  
When we understand that there's a purpose

"Everything you've done in your life  
Every experience, every thought, every moment  
Has led to this, has led to now.  
Everything that happens is for a reason  
Every success, every defeat, everything.  
Nothing is an accident."

All the fun of the fair  
There's nothing very merry about going round and round  
Heart's in your mouth, hands in the air,  
Head is spinning as you tumble to the ground.  
And this constant change of feelings is making me reel.  
This constant change of feelings is making me...

Wanna get off, I want it to stop,  
(These are the lessons, learn them well)  
You can't get off.  
I wanna get off, I wanna check out,  
(These are the lessons we live to learn)  
You can't get off, no you can't stop it.  
Wanna get off, I want it to stop,  
(These are our lessons)  
You can't get off.  
I wanna get off, I wanna to check out,  
(Good and bad, we live to learn)  
You can't get off, no you can't stop it.
