

Last Time

Anthony Stewart Head

It's just like the last time
The part where I try to deny
That she's already said goodbye

Time and time again I find that I'm
Lying quiet by her side
Wondering what she's got to hide
This time

I guess I'm just a pastime
Something to keep her occupied
Til she decides to let it slide
And we both know she'll come back on the fly
And I'll pretend she's justified
And she'll pretend I've got my pride

But I don't understand why every time
I get ripped all up inside
Then I ... give it one more try

So let this be the last time
Let this well of mine run dry
So I don't have to watch me cry

This time when she goes I'll be resigned
Let me shut the door behind her
Let me put her from my mind
Let my spirits grow unkind
Let her be the one to find
That I ... give it one more try

Try it one more time
This will be the last time
The last time
The last time
