

## Live by the Rules

Antidote

I don't wanna live by their rules  
So much I can't do it's always no

Don't tell me it's best for us all  
Government it's laws it's one big wall

They put control on everything that's going on  
This feels like a modern prison  
So are you gonna let them have their way and take control of you  
Or are you gonna take a stand and not give in say FUCK YOU
