

# Follow Me

Anuheia

Looking for light in the darkness  
Letting go is the hardest  
All we have is love to give  
Love is why we're meant to live

I came to find you  
(Let's run away, run away)  
Don't look behind you  
(Just follow me, follow me)  
I came to find you  
(Let's run away, run away)  
Don't look behind you  
(Just follow me, follow me)

Nothing's holding you back  
(Follow me, follow me)  
Come and follow me  
Nothing's holding you back  
(Follow me, follow me)  
Come and follow me

Out of the ashes we rise up  
Never knowing our time's up  
All we have is love to give  
Love is why we're meant to live

I came to find you  
(Let's run away, run away)  
Don't look behind you  
(Just follow me, follow me)  
I came to find you

(Let's run away, run away)  
Don't look behind you  
(Just follow me, follow me)

Nothing's holding you back  
(Follow me, follow me)  
Come and follow me  
Nothing's holding you back  
(Follow me, follow me)  
Come and follow me

(I came to find you)  
Looking for light in the darkness  
All we have is love to give  
Love is why we're meant to live

(Yeah)  
Nothing's holding you back  
(Follow me, follow me)  
Come and follow me (Yeah)  
Nothing's holding you back  
(Follow me, follow me)  
Come and follow me

(I came to find you)

Nothing's holding you back  
(Follow me, follow me)  
Come and follow me  
(Don't look behind you)  
Nothing's holding you back  
(Follow me, follow me)  
Come and follow me
