

X-Lover

Anuheia

I found your letter
From some time ago
I'm looking back
And it's hard to imagine
We were lovers
When we both let go
I never thought that
You and I would wind up strangers

You had your secrets
And I had mine
Couldn't keep the fire burning
Couldn't change what wasn't right

When the memories come back to me
It's kinda strange to think if we
Had more time, just what would be

Do we have to go
And walk away
I never thought
You'd be the lover
I'd X out one day
The good thing we had
Came to end
Who coulda known
We'd break apart
I never thought I'd say

You're my X-lover
You're my X-lover, oh
You're my X-lover, whoa, whoa
(Just like that, just like that)

Do you remember
Just how good it was
Loving all day
Loving all night
Connection so strong
You could read my mind
With just a look in my eyes

When you smiled
Everything so wrong
Became aight
And I ask why

Why the cracks begin to show
And the passion starts to fade
Try to hold on for our lives
[?]

Did you have to go
And walk away
I never thought
You'd be the lover
I'd X out one day

The good thing we had
Came to end
Who coulda known
We'd break apart
I never thought I'd say

You're my X-lover
You're my X-lover, oh
You're my X-lover, whoa, oh
(Just like that, just like that)

Try hard to just to comprehend
I've lost a lover, I've lost a friend
Got these feelings from way back when
That we'll feel again

Did you have to go
And walk away
I never thought
You'd be the lover
I'd X out one day
The good thing we had
Came to end
Who coulda known
We'd break apart
I never thought I'd say

You're my X-lover
You're my X-lover
Ooh, ooh, oh
(Just like that, just like that)
Who coulda known
We'd break apart
I never thought I'd say
You're my X-lover
