

Doing What I Want

Anvil

When I was young and innocent
With future there to see
I made crucial choices
For what was gonna be
I live with all the consequence
And will always carry on
I'm the one I answer too
And will be til I'm gone, until I'm gone

I'm just doing what I want until I'm gone
I'm just doing what I want
I'm just doing what I want

If people try to change me
I tell them where to go
I live my life the way I want
It's the only way I know
Be your own hero
And pursue the things you love
When you have the passion
That I'm singing of, I'm singing of

I'm just doing what I want, for the love
I'm just doing what I want
I'm just doing what I want

Critics try to bash you
Take your worth away
Doesn't matter what they think
Even less in what they say
When you do what you want
You know that it's done right
The driving of your destiny
To your hearts delight, hearts delight

I'm just doing what I want, hearts delight
I'm just doing what I want
I'm just doing what I want
