From day one it begins
It's a chase to fit in
Measure up, counting down
It's a race for the crown

But I said
Whats that got to do with my life
And why's it got to be so tough
Now whats that got to do with my mind
And when's it gonna be enough

I never felt so free
Beautiful
Free to be me
Beautiful
I like what I see
Beautiful
I'm strong and I'm bright
I'm pretty as a light
I'm free

Be strong but not too tough
Have an opinion but not too much
Be glam and lush, be the girl next door
So many rules, you know I can't keep score

And I said
Whats that got to do with my life
And why's it got to be so tough
Now whats that got to do with my mind
And when's it gonna be enough

I never felt so free
Beautiful
Free to be me
Beautiful
I like what I see
Beautiful
I'm strong and I'm bright
I'm pretty as a light
I'm free

After all it's your flaws that make you who you are
You know your imperfections deserve a celebration
Lets take it to a whole new elevation (elevation)

Beautiful
Free to be me
Beautiful
I like what I see
Beautiful
I'm strong and I'm bright
I'm pretty as the light yeah

Beautiful
Free to be me
Beautiful

I like what I see
Beautiful
I'm strong oh I'm bright
Pretty as a light
