

Me and My Phone

Anya Marina

I sent a message from Russia
You got my note in Japan
My heart glows in the dark in my hand

See the words and the pictures
I look into the light
My heart glows in the dark
Is it right?

Say something, say something, am I alone?
Say something, say something or...
Is it me and my phone?
Just me and my phone

Once we were lovers in Venice
Then you got lost out at sea
My heart glows in the dark
And it lights up the screen

See the words and the pictures
I look into the light
My heart glows in the dark
Is it right?

Say something, say something, am I alone?
Say something, say something or...
Is it me and my phone?
Just me and my phone

I'm so tired I can't sleep
Machine heart won't let me be

Took a redeye to London
You were halfway to Nice
My heart breaks in the dark
Can you see me?

La la la...

Say something, say something, am I alone?
Say something, say something or...
Is it me and my phone?
Just me and my phone
My phone
Is it me and my phone
Just me and my phone
My phone
Is it me and my phone?
