

One Less Thing To Worry About

Apparatjik

Your head asleep on the pillow
Your face dead to the world
Your eyes shipwrecked in the morning behind curls

You wake time's of the essence now
It steals all that you've got
You can't pretend that you're everything that you're not

But I won't let you go without
Having one less thing to worry about
Somewhere, all you can wish for
Somewhere, air you can breathe
Somewhere, just not here
Just not here

You're feet lost in the snowdrift
Your hands icicle blue
Your lips pressed through december
Good as new

So calm down no reason to panic now
Relax and soon you'll be home
Why not remember this feeling
Nice and warm

But I can't let you go without
Having one less thing to worry about

Somewhere, all you can wish for
Somewhere, air you can breathe
Somewhere, all you can wish for
Somewhere, just not here

I know, calling no longer heals
I know, you think you can just walk
I know, you learn your not in your mind

Just not here

I know, calling no longer heals
I know, you think you can just leave
Your mind melting, lost in the fire
In the fire
