

# Never Hurt Again

Aquilo

Let me lie in the road  
And take my eye off the question  
Like a stone growing old  
I'll forget my obsession (yeah!)

And I don't understand  
All these shaking hands  
Everyone pretending that something above  
I've been praying too  
But nothing's coming through  
Everytime I'm hung up here I'm

Never gonna hurt again  
Never gonna let you in  
Getting the same old answers  
Never gonna hurt again  
Never gonna let you in  
Back in the same old darkness

I've had enough of this shit  
And now it's time for a difference  
'Cause I've tried being me  
But your eyes never listen (yeah!)

And I don't understand  
All these shaking hands  
Everyone pretending that something above  
I've been praying too  
But nothing's coming through  
Everytime I'm hung up here I'm

Never gonna hurt again  
Never gonna let you in  
Getting the same old answers  
Never gonna hurt again  
Never gonna let you in  
Back in the same old darkness
