

# The Famous Jane

Arc Angels

Nobody knows where she came from  
She was everybody's lover and everybody's  
Former friend  
With all the known variations  
Her story gets told again and again

She was probably born in Hollywood  
In the era of the King  
Hitched hiked Highway 61 and got elected Queen  
She ended up on Bleeker St.  
Down in the underground

Somebody said that she was sweet  
And the story got around

The Famous Jane  
When we've forgotten all the details  
They'll still remember the name

We met for the first time in fiction  
We saw Jane run-run Jane run  
Now Jane has become an addiction  
Jane's gotten serious and she carries a gun

They talk about her purity  
They talk about her grace  
They talk about her standing on the corner  
With an electric violin case  
Then suddenly she disappeared  
But she'll be back again  
With a brand new face and circumstance  
And a whole new batch of friends  
Meanwhile the rumors circulate  
And the story never ends
