

# I Will Live Again

Arch Enemy

I don't know  
I cannot see  
Who we are now  
How we used to be

Is it you?  
Or is it me?  
Look in the mirror  
We are a fading memory

Who are we?  
We got lost  
In the cold

I will live again you'll see - tomorrow's not scaring me  
Far away from yesterday - Just take away this pain

Fatal chaos  
Hurtful lies  
A broken dream  
Is all we left behind

Is it you?  
Or is it me?  
Look in the mirror  
Just a fading memory
