

## Leader of the Rats

Arch Enemy

Crawling in the slime  
Dirt infested minds  
Always second best, leader of the rats  
Spreading their disease

Hiding behind trivial cynicism  
Venomous tongues spitting forth lies  
So quick to criticize the life of others  
Who are you to judge us

On a higher plain  
Our art lives on forever  
You are the scum beneath us  
Fighting your pathetic battle

Anonymous animosity  
Dirt infested minds

You hide behind trivial cynicism  
Venomous tongues spitting forth lies  
So quick to criticize the life of others  
Who are you to judge us

Laughing right into your face  
As we watch your infantile behaviour  
Love us or hate us - we don't care  
We never aimed to please you

Anonymous animosity  
Dirt infested minds  
Anonymous animosity  
Spreading their disease

Always second best  
Leader Of The Rats  
Spreading their disease
