## Machtkampf

## **Arch Enemy**

Flying high on blackened wings Vengeance in my eyes Colder than steel instantly real A new power flows through me

Reaching out for something Knowing that it's there - Somewhere

All I had was
All I gave
Was it not enough?
You took
You take
Never giving anything back

Bridges that I thought I crossed Got to cross them all again These parts that lead to nowhere Mocked me all my life

Make a change Break the chain Make a change End this game

Vengeance in my eyes A new power flows in me
