

# Never Forgive, Never Forget

Arch Enemy

See the wolf in sheep's skin  
Waiting in the shadows  
Watching, learning...too bad I did not recognize  
The dark undertow  
Pulling you away  
We've been infiltrated, in fact violated  
Carefully orchestrated

Hate springs eternal  
In this black heart of mine  
Time heals nothing  
I'll never forgive  
Never forget

You swallowed the lies  
In a search for inner peace  
With open ears and eyes  
Could you not feel  
The dark undertow  
Pulling you down  
You've been infiltrated, in fact violated  
Ultimately desecrated

When the dust has settled  
I'll watch you drown, drown in your regret
