## **Under Black Flags We March**

**Arch Enemy** 

Your hate is our trigger Revolution now The more we have to suffer The more we will fight

With our fists up in the air!

Legions marching ready to fire These streets will burn - let the black flag rise Legions marching ready to fire Empires of corruption - crash and fall

Under black flags we march...

The voice of rebellion calls your name Servants of the truth are standing tall

With our fists up in the air!

Legions marching ready to fire These streets will burn - let the black flag rise Legions marching ready to fire Empires of corruption - crash and fall
