

Black Night

Arch of Hell

Walk around in the midnight
And heard the voices
Beyond the downstreet
Lamps are shining like a candle
In my hearth

Started war in my mind
Enemy
Am I let's stop this fight
C'mon c'mon die

Bad ages are coming
My faith is falling
Down!

Malice... In my blind eyes
You can not see in his night
'Cuz!!

One night,
I wanna know
How it became the black night
Never mind, never know
But must be left behind

One night,
One day
My life is in the other side
Never mind, never know
I have to stay, stay survive

Why cannot see disagreed?

One night, I wanna know
How it became the black night
Never mind, never know
But must be leave behind...

And rise confused aims
That never should have been born

Why cannot you see
My world in agony
My mind has been crucified
Can't you see
Light kills agony
Light kills agony
Light kills agony

Night's shadows are breathing
And I despite me!

One night, I wanna know
How it became the black night
Never mind, never know
But must be left behind
