

# Utopia Treasure

## Arch of Hell

Look trough my eyes  
And you'll see more  
I don't wanna keep away  
But stay before

Look trough my eyes  
and I'm so alone  
There is no one else  
Beside you

Hey!

I saw the utopia treasure  
Better for me  
And better for you  
I saw the utopia treasure  
Better for me  
And better for you too

Try touch the vision  
Of perfect world  
For lost society,  
You need the save world

I'll go for my aim  
While my heart is beating forever  
And when there's no way  
I would die for a fight  
And you should close your eyes  
Until my arm is out  
'Cuz I... I... I wanna live for the end  
I'll go for my aim  
While my heart is beating forever  
And when there's no way out  
I would die for a fight

Are you satisfied?  
Are you satisfied?  
I'm not... I saw more  
Are you satisfied?  
Are you satisfied?  
I'm not... I want more

Let's break down this illusion  
Of our nasty world  
Let's break down this illusion  
Of our nasty world

We are slaves, together  
We can leave this  
Mosaic of bloody earth

Look trough my eyes  
And you'll see more  
I don't wanna keep away  
But stay before  
Look trough my eyes

and I am so alone  
There is no one else  
Beside you

I saw the utopia treasure  
Better for me and better for you  
I saw the utopia treasure  
Better for me and better for you too
