

# The Weight of the World

Archive

Heavier than ice  
Oh the weight of the world  
Breaking inside my heart of horror  
Heavier than ice  
Breaking the world  
Another tear I cry  
I run but I cannot hide  
The cold blue vein drip-feeding in the pain  
The sea of memories  
Horror, horror heart of horror,  
horror, horror heart of horror  
Heavier than ice  
Fading with the light  
I look to the sky  
But it's growing inside
