

## A Good Look Around

Ari Hest

I like how you get when I get out of line  
You say all the right things, I have no reply  
I like how you butt in  
And make me take a good look around  
Yea, you make me take a good look around yeah  
You make me take a good look around

I fail to remember, remember sometimes  
I guess that's your way then, of training my mind  
That ends are beginnings  
And that everything that's lost is found yeah  
Yea everything that's lost is found  
Everything that's lost is found

Mmmhmmmm

If I'd only known you  
Right from the start  
It would've been easier  
To tend to my heart  
But now we are together  
And I know we'll make it work somehow yeah  
We're gonna make it work somehow yeah  
We're gonna make it work somehow

In desperate times when I am weak  
In times when it is blood I seek  
When nothing's going the way I planned  
And in times that I cannot understand  
When I go after things beyond my reach (love is all around you)  
When I question how I'll stand the heat (love is all around)  
You come to me to let me know (love is all around you)  
That the good the bad is how I will grow

I like how you get when, I get out of line
