

Harvest

Ari Hest

Out in the air where my heart is
A harvest of hope
I don't know where my heart is
The harvest of hope
I can let go
Where my heart is, my heart is

Days drift into dreams
The colors swell
To settle in the sand
Salt cradles the cut
It's all too much
Heavy as a hand
Brittle as a bone
Seeking you alone

Out in the air where my heart is
A harvest of hope
I don't know where my heart is
The harvest of hope
I can let go
Where my heart is, my heart is

Lost inside a breath
Beneath a choice
I never can decide
Hide me from the heat
So bittersweet
Calling on a change
Frozen in a frame
I'm an island, I am alone

Out in the air where my heart is
A harvest of hope
I don't know where my heart is
The harvest of hope
I can let go
Where my heart is, my heart is

Everything is ours

And everyone looks ahead
To a life they want to lead
A time to begin again
Ascending somewhere
Out in the air, where my heart is
my heart is
