

## The Deal We Made

Ari Hest

Oh what can I do to keep my will strong  
I've tacked on so many solos to this old song  
Can't help but notice the music fade  
This is the deal we made

I have been inspired in ways I never dreamed of  
Defined and redefined daily the word love  
Soon I'll leave the sun for the cool blue shade  
This is the deal we made

As these years go by, I get what I'm here for  
I can see through the drops of the downpour  
And I'm not yet through with the hand I've played  
You can tell me to fold, but for now I'll stay  
I know the deal we made  
Yeah this is the deal we made
