

## Leaving Us

Arkan

Freedom has left our lands  
The one we cherished  
The one that we really loved  
The one we expected so much  
The one we hoped for  
She came closer  
Saw what we were  
Contemplating our lives  
With the coldness of a blade  
Leaving us for ever  
The priceless welfare  
Of which we know  
Realizing we live in pain
